GAME PRESERVES THROUGHOUT STATE

BOARD OF GAME AND FISH HAS PLAN OF INTEREST TO ALL GEORGIANS.

Within the near future the State board of game and fish plans to establish several game preserves throughout Georgia. The board has instructed the game and fish commissioner, Mr. Peter S. Twitty, to make a survey of the state with the view of selecting areas best adapted to this purpose. Mr. Twitty states that while it is the plan of the board to establish a score or more of small preserves over the state within the next two or three years, the board plans first to open one preserve in north Georgia, one in central Georgia, one in south Georgia, and perhaps one in the coast counties. The board does not expect to buy land for this purpose, but will lease it for periods of from five to twenty years, with privilege of renewal. Mr. Twitty states that tracts of from one thousand to three thousand acres will be most desirable, but smaller or larger tracts may be leased if conditions justify. He has already received numbers of offers from land owners in all parts of Georgia and some very desirable tracts have been tendered the board on liberal terms. However, he states that the board does not intend to make any lease until the people of each county in the state have had an opportunity to submit propositions, if they so desire. Persons who own or control large tracts of land suitable for game preserves and who are willing to turn them over to the state on liberal terms for this purpose should communicate with Mr. Twitty immediately, informing him of the size of the tract, the amount of game cover thereon, as well as the cultivatable acreage, the number and description of the streams on the land and other information, giving a fair idea of the premises. It is expected that Mr. Twitty and members of the board will personally inspect any tract before it is selected as a game preserve but a full description of the land should be given in any letter to the department. The conservation of Georgia's game and wild life is of vital importance to the state. No matter how efficiently the game and fish department enforces the present game laws, it can never be hoped to substantially increase the game and wild life of Georgia until some constructive program of propagation is followed out. It is a well recognized fact that the surest way to build up the game supply is through the establishment of game preserves. The plan of the game and fish board to establish a large number of small preserves is an admirable one. These preserves scattered throughout the different sections of the state will mean the increase of the game supply in each section. It is certainly much better than having one or two large preserves that will only benefit one or two sections. It is hoped that the large land owners of Georgia will see the opportunity offered their community and will co-operate with the game and fish board in its efforts to rehabilitate Georgia's diminishing wild life.

DRIVE NEXT WEEK TO COMPLETE SALE OF COINS

The final drive to complete the sale of Bulloch county's quota of Memorial coins will begin next Monday and will run throughout the entire week unless the quota is reached before the end of the week. The chairman of the Harvest Campaign for the county, by appointment of Governor Walker, is Mrs. J. J. Zetterover. She has formed committees throughout the various counties who will have active charge of the sale of coins. These committees for the county are: Statesboro—Misses Arleen Zetterover, Annie Smith and Elizabeth Blitch. Port—Misses Eunice Parsons and Claudia Smith. Brooklet—Mrs. J. M. McElveen, Mrs. Remer Warnock. Stilton—Misses Lucile Brannen and Elizabeth Brown. Register—Misses Janie Lou Brannen and Janie Lee Lanier. The quota for Bulloch county is 1,200 coins. The intrinsic value of the coins is 50 cents each. They will be sold at \$1.00 each, giving a net profit of \$600 for the Memorial fund. The two young ladies who sell the largest amount in Bulloch county will be honor guests at a ball to be given by the governor next month. Bulloch's quota.

NEW EXPLOSIVE OFFERED FOR FARMERS' BENEFIT

The United States bureau of public roads has an explosive called pyro which is being distributed to the farmers of the state for agricultural purposes through county agents. This material is cartridge in six ounce sticks which have approximately the same strength as an eight ounce stick of 20 cent dynamite. It is packed 50 pounds to the box and contains 135 sticks. The cost of this material is \$9.50 per hundred f. o. b. nearest shipping point. There is a car now stored at Wrightsville, from which orders for this section will be shipped. No. 6 caps will be furnished free at the rate of one cap for each pound of material. Those interested in this material will please give their orders to County Agent E. P. Josey. He has already ordered 800 pounds for farmers of Bulloch county. W. E. Brouch, specialist in agricultural engineering, will give a demonstration in blowing stumps with pyro at W. L. Loeb's place, 6 miles east of Statesboro, on Monday, Jan. 18th, in the morning. All those interested will please attend. E. P. JOSEY, County Agent.

FORD ADDS FOUR ITEMS TO SPECIAL EQUIPMENT

Windshield wipers, gypsy curtains, top boot, and automatic windshield wiper are being added to the items of special equipment supplied by the Ford Motor Company. The first public display of this equipment will be during the Ford National Show Week, January 9-16. These specialties are not "extras" but have been so designed by Ford engineers as to become actually part of the car. The equipment has the identity of genuine Ford parts and is held to the same standard of quality as the car itself. Behind them lies extensive experiment to determine the type and construction best adapted to Ford cars, which has been unhampered by any compromise necessary to permit adaptation to some other kind of car. The introduction of these specialties

NEGOTIATIONS DROPPED FOR PURCHASE OF PLANT

OFFER IS WITHDRAWN BECAUSE OF FAILURE OF COUNCIL TO REACH A DECISION.

Upon failure of the city council, at the regular monthly meeting held Tuesday evening to reach a decision on the offer, the South Georgia Power Company formally withdrew its offer to purchase the city light plant, which has been pending for the past several months. At the next session of council, a resolution was adopted to reduce the rate for electric lights, beginning March 1st, to a maximum of 12 cents per kilowatt instead of 16, less 10 per cent, as at present. This last action of the council is construed as an effort to satisfy the more or less persistent demand of the people to accept the offer of the power company and sell the plant. Also at the same session of the council a resolution was adopted to employ an expert engineer to appraise the physical value of the city plant and to ascertain the possible cost of pumping water for the city and lighting the streets. This last investigation is in view of the fact that the water plant was not included in the proposed sale, which left its operation upon the city, and the additional fact that the city would of necessity be called upon to pay for its general fund the expense of street lighting, both of which burdens are now borne by the consumers of electricity who are made to pay the entire operating expense of the city plant. It is declared by members of the council that the favored reduction of the light rate to 12 cents at this lower rate will be sufficient to maintain the plant, and it is believed that the people will be content with the reduction in lieu of the proposed rate of 14 cents named by the power company in their offer for the purchase of the plant.

COUNTRY CLUB FORMED WITH \$10,000 CAPITAL

MEMBERSHIP IN LAKE VIEW TO BE LIMITED TO 100 AT \$100 PER MEMBERSHIP. Lake View Country Club was the name formally chosen for the new country club now being organized, at a meeting held Monday evening. At this same meeting a resolution was adopted abandoning the idea of a golf course and a committee was designated to close the deal for the 100-acre tract of land belonging to Chas. K. Bland now including the present Lake View improvements. These improvements comprise the mill pond with the pavilion which has been used as a pleasure resort and a small cottage on the right of the road opposite the mill, occupied by Mr. Bland's family, located on about 5 acres of improved land. Application will at once be made for incorporation of the club, a keeper will be employed for the club and extensive improvements will be launched. The land was purchased at a cost of approximately \$4,300. The \$10,000 capital stock of the club will be applied to beautifying and improving the property under expert direction. There was at one time considerable discussion favorable to the addition of a golf course in connection, and negotiations were pending for an 80-acre tract of land adjoining the lake. The price asked for this tract, however, made the project impossible; besides the fact that golf enthusiasm is at a low ebb among the club members because so few of them have ever met the game face to face. The committee who will complete the deal for the Lake View property are Brooks Sorrier, A. J. Mooney, C. W. Brannen, J. L. Mathews and G. P. Donaldson. Hilton Boock was directed to look after the legal phases of the transaction.

LEWIS IS ADDED TO NORMAL SCHOOL BOARD

Subject to the confirmation of the senate, Governor Clifford Walker has announced the appointment of Hon. S. W. Lewis of Statesboro, Georgia to membership on the board of trustees of the Georgia Normal School. His term of office begins with January 5, 1925 and ends September 22, 1928. Mr. Lewis succeeds Mrs. L. M. Branch, of Ludowick who leaves the board by resignation. The appointment of Mr. Lewis completes a plan of the board to have three members of the board located in Bulloch county to serve as an executive committee. The members of this committee at present are Chairman J. E. McCroan, Statesboro, Ga.; Hon. Howell Cone, Statesboro, Ga.; and S. W. Lewis, Statesboro, Ga. The chairman of the board, the school authorities, and the Statesboro people generally are gratified that Governor Walker has appointed Mr. Lewis to membership on the Board of Trustees of the Georgia Normal School.

CHANCE IN DATES OF PREACHING AT ELMER

The preaching date for Elmer church has been changed to the fourth Sunday at 11 a. m. and Saturday night before at 8 o'clock. Rev. Wm. Kitchen is pastor of the church. I wish to thank many friends for their untiring efforts and many deeds of kindness shown during the illness and death of my husband. Their faithfulness shall long be remembered. MRS. J. C. WILLIAMS.

POULTRY BUYERS TO VISIT BROOKLET EACH MONDAY

In addition to the weekly poultry sale at Register, which will continue to be held on Mondays between the hours of 9 and 2, arrangements have been made to buy poultry at Brooklet between 3 and 4 o'clock on Mondays. The sale at Register last Monday was satisfactory. It is hoped that the farmers will avail themselves of this opportunity to market their surplus chickens. E. P. JOSEY, County Agent.

CARD OF THANKS.

I wish to thank many friends for their untiring efforts and many deeds of kindness shown during the illness and death of my husband. Their faithfulness shall long be remembered. MRS. J. C. WILLIAMS.

## TRYING TO HELP FARMERS

Perhaps the most ungenerous class about efforts to co-operate with them along practical lines, are the farmers of the country.

It is a common thing to hear a group of farmers complain that the farmer must fight his battles alone and that every other interest is arrayed against him to do him hurt. But yet, call a conference of farmers to discuss their own interests, and observe how cold is their response to the call.

Under the direction of the state agricultural department there is being held throughout the state this week a series of farmers institutes. Practically every county is being visited by a group of intelligent men who are trying to aid the farming interest through a discussion of various important phases of farming.

Three of these gentlemen, noted as capable leaders, comprised the group that visited Statesboro Tuesday. Their coming was advertised through the county paper and other papers having circulation in the county. The meeting was scheduled to be held in the court house at 10 o'clock. When it finally was set under motion thirty minutes later than that, there were present by actual count five men engaged in farming, the newspaperman and the county agent—in addition to the three men comprising the group of speakers. The meeting continued for something more than an hour.

Two of the farmers left during the meeting and four others came in. At the close there were seven farmers present.

If there is anybody who ought to be interested in these occasions, the farmer himself certainly ought to be. These several farmers who were present are not of the class who put up an howl about the indifference of other interests to those of the farmer. They are of the class who realize that a solution of the farmers' problems can only be worked out through his own active co-operation.

It is through an intelligent interest in his own affairs.

The speakers covered a wide range of live subjects—livestock, poultry, cover crops, fertilization, drainage and marketing. The farmer who knows everything that is worth knowing about the betterment of his methods, does not need to waste his time in assembling with those who are to discuss those matters. But the number of those who really know everything worth while, is alarmingly small in this section. The number of those who are indifferent is great, however. They are the ones who find that something has gone wrong, and then they are active enough to find shoulders upon whom to place the blame.

It is well enough to fight shy of those men who go about as agitators, attempting to stir up the farmer to an imagination that everybody is his foe, but that is the class of the public speaker who can always count upon a generous hearing.

The man who is most to blame for the farmer's plight is none other than the farmer himself. He is to blame because he does not avail himself of the intelligent counsel of others who are anxious to give him information that he can profit by.

## IS IT BORN IN US?

When Mrs. Jack Dempsey sailed from Europe recently the papers printed pictures of her carrying a \$10,000 lap-dog. When she reached New York and was asked to pay a tax on the dog, its value had dwindled to \$5. That is probably why \$57.99 more than the dog is worth, but we are pointing to the incident here just to show that it seems to be second-nature with many Americans to try to escape paying taxes.

## SOME 1926 ADVICE

Secretary Hoover, in giving out a statement to the newspapers of the country on the outlook for business in 1926, is quoted as saying that "On the whole, both our country and the rest of the world face a more favorable outlook at this time of the year than for a long time past. All signs indicate that if we will temper our optimism with a sprinkling of caution we shall continue our high level of prosperity right on through the year 1926."

We feel sure that our people will get a good deal of satisfaction out of Secretary Hoover's statement, and we also feel sure they will abide by his warning. There can be no question but that the United States, taken as a whole, is now in a more prosperous condition than it has been at any time since the World War. But if there is a tendency to stage a great spending orgy, as we did in 1919-20, if there is an inclination to scatter money freely simply because it is easier to get hold of, then we must expect serious results.

Factories are running almost to their fullest production; retail merchants report a heavier trade than in any recent time. There is every reason to believe that the United States, taken as a whole, is now in a more prosperous condition than it has been at any time since the World War. But if there is a tendency to stage a great spending orgy, as we did in 1919-20, if there is an inclination to scatter money freely simply because it is easier to get hold of, then we must expect serious results.

Every man started life as a baby, and some of them occasionally give evidence of not having outgrown it.

## ONE MORE LAW NEEDED

This state, like every other, is overburdened with laws, but it needs one more. It needs one making it a misdemeanor, punishable by a heavy fine, to erect any sign, poster or billboard which obstructs the view at any road or grade-crossing. Too many accidents are occurring as a result of signs being placed along our highways. The number of these signs is growing heavier every year, and since roads are not being made any wider to take care of the additional traffic, then something must be done to keep those roads so every driver will have at all times a clear and unobstructed view of the road ahead. Tennessee has sent out wrecking crews to tear away every billboard along every highway. It is an example that could be followed with profit by this and every other state, and a move that we will sooner or later have to adopt if we hope to reduce the number of accidents.

As a general thing, a stock exchange is a place where a fellow exchanges a stock of money for a stock of experience.

## A 13-MONTH YEAR

In New York City, there is a movement to create a 13-month year, certain business men arguing that 13 months of 28 days each would better observe their purposes. That may be all right for New York, but speaking for ourselves, we are satisfied to let the calendar stand as it has for ages. Isn't it hard enough to pay rent for 12 months in a year without adding still another month? Isn't every business calculation and especially 30-day based on a 12-month year? If we change the calendar it will take years to readjust matters to fit it. We would even have to recalculate our own ages, make over our whole insurance plan and, in fact, revolutionize all civilization. It would be too much of a job for the benefit we would get out of it, so we are satisfied to let well enough alone.

## Amazing Power of Mexican Mustang Liniment

Stops Rheumatism—Penetrates through the Skin to the Bone

If you suffer from Rheumatic pains and aches or have a lame back or feel stiff and sore, don't wait a minute longer. Apply a small quantity of Mexican Mustang Liniment right opposite the sore or achy spot—in almost a jiffy it will relieve the pain and soothe the inflamed parts. Your sense of comfort and relief will be great.

The remarkable penetrating power of Mexican Mustang Liniment is the reason why it cures and soothes pain even in obstinate cases of rheumatism and where other applications have failed. This wonderful liniment also cures cuts, burns and other skin troubles. It is a valuable remedy to have in the house at all times. All druggists and wholesalers sell Mexican Mustang Liniment or get it for you.

## NATIONAL RADIO FADING TESTS START FEBRUARY 9

Dates for the national tests of radio reception to determine the causes of static and fading were announced after 4,000 of the 4,500 designated observation stations had expressed a willingness to take part in the survey, which is being conducted by the Stewart-Warner Speedometer Corporation, in co-operation with the Northwestern University. The first test will be held on the night of February 9th, from 8 to 11 o'clock central standard time. The second and third will be on the two succeeding nights at the same hours. Subsequent trials will be held throughout the winter, should the data obtained indicate that real progress in a search for the causes of these two major radio annoyances is possible.

It was originally planned to hold these tests in January, but owing to the international tests scheduled for that month it was decided to hold the fading and static tests at a later date.

Most of the observations will be made by broadcast listeners using standard receiving sets and depending upon their accuracy of their reports upon their own ears. However, to insure the scientific accuracy of the result, twenty control stations equipped with electrical measuring devices and automatic recorders will be placed in the principal broadcasting centers of the country.

## CHEVROLET ANNOUNCES NUMEROUS IMPROVEMENTS

Many mechanical improvements, in the face of price reductions, were displayed on the new Chevrolet car at the opening of the New York automobile show Saturday. The numerous mechanical improvements, together with lower prices, coming at this time when high tire costs threaten advanced car prices, concentrated attention on the Chevrolet exhibit.

The price reduction was announced several days ago by W. S. Knudsen, president of the Chevrolet Motor company. At that time no mention was made of improvements to the car. These mechanical changes are designed to give even smoother operation, greater engine efficiency and smoother riding. One of the features is an air cleaner, something which only cars of much higher price have been equipped with heretofore.

Among the new improvements are: lighter pistons and pins; engine lubricating system of increased efficiency; special three point motor suspension and redesigned motor head with larger cooling areas around the valves, all of which contribute materially toward smooth operation. The new car is well cushioned by long semi-elliptic springs of special design.

The new piston assembly is about a half-pound lighter, decreasing by approximately two pounds the total weight of moving parts in the cylinders. The piston is of the skeleton type, combining lightness with ample strength and large bearing surface.

Constant and complete lubrication is assured by the new oiling system which places the oil pump in the crank case where it is primed the moment the engine starts. It is driven from the cam shaft by noiseless spiral gears. The new motor head with its larger cooling area increases value efficiency and life. The generator now is driven from the crank shaft by a silent V-type belt which also operates the fan. The water pump has a new mounting with larger bearings.

Other improvements are: an air cleaner at the intake opening of the air heater; tension springs at the joints of the spark and throttle control rods; greater rigidity in the dash and an increase of one-third in the braking area of the service brakes which are operated by an improved type of brake rod.

## CARD OF THANKS

We wish to extend our sincere thanks to our many friends and relatives who ministered to us during the long illness and death of our father, D. A. Braun. The many acts of kindness shall long be remembered by each of us. HIS CHILDREN.

A well-known man recently asked us if we knew whether or not women are smarter than men. We have an opinion, but we haven't the courage to express it.

## COUNTY SCHOOL NEWS

All schools have reopened since the Christmas holidays and are off to a good start for the remainder of the present school year. With the proper co-operation on the part of patrons with teachers, there can and will be results obtained from this year's schooling. Let us all pull for our respective schools and see how much we can help rather than hinder progress.

Trustees and patrons should look after the matter of supplying sanitary water for the use of the children in the schools. Too many surface wells or springs are being used for supplying the drinking water. Where the water is near the surface, a pump well put down is the best method of supplying water. There should be drain pipes to take away all waste water so that it will not drain back into the source of supply.

All children that have not entered some school who are within the ages of 8 to 14, inclusive, should be reported to the teacher of the nearest school immediately. Parents who have children within these ages should send such children without further delay. Put them in school and save yourself and this board the trouble you will cause by failure to enter these children as required by the compulsory attendance law of the state.

The Nevils Junior High school is installing a modern water supply. The Nevils school is one of the coming schools of the county.

The water supply for the Portals high school is the most complete of any school in the county system. Schools that are near enough a deep well with elevated tank water supply will do well to visit the Portals school and see how they have arranged their water supply. The cost is not too high and the value of such system is hard to be measured in dollars and cents compared to the usual inferior system. Drive over to Portals and look the school over and you will be impressed with the school in every way. Portals will be accredited during this school year. They now have full eleven grades taught by well trained teachers.

The big schools are growing bigger and the smaller schools in many cases are getting smaller. The Aaron school has grown from a two-teacher school to a four-teacher school this term. More than one hundred children in attendance there now and it still grows. Aaron community is coming into its own, and there is a real school, both territory and children. All that is needed to put it over is a united effort on the part of the people of the community and it will happen. Good faculty of teachers there who seem to have the confidence of the people and are getting the proper support. You will get results when you stand by your school in this way.

These schools that have not had their floors oiled should do so immediately. We are looking to the teachers to see that this done. Have your trustees or one of the patrons come and get the oil and put it on for your protection as well as the children's protection.

**A Word About Roofs—**

We've shown a number of people in this neighborhood how easy it is to make their homes more attractive with colorful roofs. And this for less money than they would ordinarily pay for roofs that look commonplace and dull.

For Barrett Shingles, with their weather-surface of everlasting slate in dark red, moss green or blue-black, are surprisingly economical. Moreover, they're rot-proof and rust-proof—never need painting or staining. Fire-safe, too—proof against sparks and embers.

**Barrett ROOFINGS**

We've never yet seen a Barrett Roof that didn't give its owners satisfaction. And we've had a good many years' experience with roofings. In Barrett Shingles you will find every quality of a good roof.

Come in and see the different types of Barrett Roofings—a type suitable for your home, your farm or your factory.

GEORGIA FARM WEEK  
COMES JANUARY 25-30

The nineteenth annual Georgia Farmer's week will be held at the State College of Agriculture during the week of January 25 to 30, it is announced by Dr. Andrew M. Soule, president of the institution.

"Develop Georgia" will be the theme of the conference Dr. Soule states and the work of the entire week will be devoted to formulating plans for carrying out this aim. More than seventy-five speakers of state and national reputations have accepted invitations to appear on the program, and round table discussions will be participated in with college and extension forces leading.

Every hour during each of the six days of the conference will be filled with something of interest to every Georgia farmer. Lectures and demonstrations will be given throughout the day, and the nights will be given over to entertainment, and addresses by well known national agricultural authorities. Those attending the meeting will be able to obtain information of the utmost importance to their business. In addition they will be accorded the opportunity of forming new acquaintances and renewing many new and desirable contacts.

There will be no cost attached to the conference outside the actual expenses of room and board while in Athens. The college extends a cordial invitation to every Georgian to be present and take part in the conference.

## AT PRESBYTERIAN CHURCH

The quarterly celebration of the Lord's Supper is to be observed Sunday morning at the 11:30 o'clock service. Preparatory services have been arranged for Wednesday night, Thursday night and Friday night, being conducted by the pastor and two of the elders of the church. In connection with the communion service there will be announcement and special reception of the new members received into the church since last communion.

## MONSTER BALD EAGLE

G. F. Lee displayed a Bald Eagle in his office Wednesday the foot of a monster bald eagle which his son killed near their home on that day. The foot measured 7 1/4 inches from tip of the tip of the claws. The spread of the wings was seven feet seven inches. The bird was perched upon a pine with its feet tightly together toward a brood of Mr. Lee's young pig when it met its Waterloo.

Colorful Ribbon Hats  
Smart for Immediate Use

Colorful Ribbon Hats  
Smart for Immediate Use

A new idea is set up in the realm of millinery for the world of fashion to adore. It is the little soft, lovely colored hat of wide belting ribbon. To its glory modernistic art is contributing its highest genius, especially in the matter of achieving subtle color effects. Blending and contrasting of pastel shades, which at present are the chief topic of the mode, makes the modern belting ribbon hat a theme of colorful tailored perfection.

The French imports are setting a standard of sophisticated color blending in these skillfully designed close-fitting chapeaux. Many of these newly arrived models show the ribbon folded in clever squares and diamonds and other novel manipulation, accenting the use of several colors. The blending of two or more shades of one color is also featured.

Very smart, also is the all-black belting ribbon hat, two very fashionable exponents of which are shown in this picture.

AT BAPTIST CHURCH.  
The pastor will preach at 11:30 Sunday morning on the subject, "Lengthening Shadows." The Lord's Supper will be observed. Dr. B. D. Ragdale will preach at night.

Special music has been arranged. In the morning the choir will sing "Praise the Lord" (Gabriel). For the evening service Mrs. C. B. Matthews will sing "The Golden City" (Dunlady).

U. D. C. MEETING.  
The Bulloch County Chapter U. D. C. will meet with Mrs. D. B. Turner Tuesday, January 19th, in the afternoon, in observance of Lady's birthday, one of our greatest generals.

The meeting begins promptly at 3 o'clock. An interesting program has been arranged, and we especially urge that all members be present. Also those who are interested in the work of the U. D. C. will be welcomed.

U. D. C.  
The ladies of the Presbyterian church acted as hosts to the Christian Women's Union Tuesday afternoon. After a short business session a very interesting program was given.

Mrs. J. E. McCann, Miss Haynes, Mrs. O. W. Horne and Mrs. E. H. Kennedy made brief talks. Miss Tubbs gave a delightful vocal solo accompanied by J. G. Moore on the piano. During the social hour which followed, hot tea and sandwiches were served.

MR. AND MRS. BRADY HOSTS.  
Mr. and Mrs. Brady delightfully entertained with three tables of cards at their home on College boulevard Saturday evening. The attractive home was decorated with vases and baskets filled with scarlet and poinsettias. Mrs. Brady was assisted by Mrs. M. E. Grimes in serving a salad course with hot chocolate. HUGE SUM VOTED  
FOR PAVED ROADS

GEORGIA COUNTIES HAVE ISSUED \$12,261,000 IN BONDS TO PRESENT DATE.

Atlanta, Jan. 17.—A compilation of statistics shows that to date the several counties of the state have issued a total of \$12,261,000 of bonds to build roads and bridges. Of that amount there has been expended thus far a total of \$10,611,054.99 and there remains available at this time a total of \$5,529,945.11, the largest available amount being in Muscogee county, where all of its recent bond issue of \$1,000,000 is available. Richmond has available \$750,000; Burke \$600,000; Jefferson \$250,000; Thomas \$250,000, and a good many other counties from \$15,000 to \$100,000.

These county issues, if the same plan which has been followed thus far is to continue, will have a match state and federal funds with. On that basis—the county putting up 25 per cent, the state 25 per cent, and the federal fund going 50 per cent, the figures would indicate an "in sight" for road work of more than \$11,000,000. Of this amount the county funds are to be used for other than state-aid roads; and, too, there will not be allotted to Georgia for the year a federal fund as great as the county issues aggregate. It is understood, though, that of the county funds now available, there has been allocated for the year \$435,000 to go on routes 7, 38, and 50, which would mean those three routes, or a part of them, have in sight an expenditure of \$970,000 by the state and counties, and like amount by the federal government, or a total of \$1,940,000 in 1926. Of this amount two counties are putting up \$130,000 on route 7, and two counties are putting up \$230,000 on route 38, all in the lower part of the state.

Decatur county votes Wednesday next on a local road bond issue. The fight for and against bonds is sharply drawn and, while the advocates of the issue believe they will carry the election, the campaigning is active on both sides. Governor Clifford Walker has been asked to go to Bainbridge Monday to speak to a bond issue rally called for that date, and which will be the last big meeting in the county before the vote is taken.

Already one date has been booked for a state bond issue speech by the governor for Monday. He goes to Moultrie that date, and will speak 11 o'clock in the morning. If arrangements can be made so he can get to Bainbridge in time for the meeting the same evening he will go, although today the matter was not definite. The call for him, though, is an urgent one and indicates somewhat the response over the state to his leadership in the fight which will be carried before the legislature to put over a state bond issue. Tuesday he speaks in Ashburn at 11 a. m. and Wednesday in Swainsboro at 3 p. m. It is rather an interesting situation the governor has entered into, where the jumps are far apart, but he has determined to present his view of the present condition in the state on roads, education and health conditions, to just as many people in the state as possible before the legislature meets on February 24th. Atlanta meets on February 24th. Atlanta meets on February 24th.

Among the features of the program to be presented will be addresses by Governor Walker, Commissioner J. J. Brown, Dr. Harvey Cox of Emory University, R. L. McKinney of the Macon News, Miss Ethel Nightingale of London, England, and Dr. Andrew M. Soule, president of the State College of Agriculture.

All phases of farming will be covered either in lectures or demonstrations, or both. One-half day will be given to the care and management of the poultry flock. An equal period will be devoted to livestock. Entertainment will be provided in the evenings.

The only catch to the meeting will be that of room and board while in Athens, and this may be obtained at a nominal rate. The lectures and demonstrations are free.

Georgia and Vermont laws entitle a man to his wife's earnings. But the women have turned the law over and taken the husband's earnings—if they can get them.

Dressing up isn't much of a task for the average man. About all he needs is a clothes brush.

**BANK ELECTS OFFICERS AND DECLARES DIVIDEND**

On January 13 the Bank of Brooklet held its annual stockholders' meeting and elected the following officers and directors for the year: J. W. Robertson, president; Thomas R. Bryan, Sr., vice president; and J. W. Coleman, cashier. D. L. Alderman, Sr., J. R. Altman, Thomas R. Bryan, Sr., J. W. Robertson and J. M. McEwen were re-elected directors, and F. L. Parrish and J. T. Mikell were elected

to fill vacancies on the board caused by death and resignation. The stockholders present were highly pleased with the condition of the bank, it being in splendid condition and having surplus and undivided profits of more than \$14,000.00, which is considered very good for an institution of its size. A dividend of 8 per cent on the capital stock was declared on 1925 business. The bank anticipates the best business in its history the coming year, as Brooklet is located in one of the best agricultural sections in the state and the Bank of Brooklet expects to share the general prosperity of this section.

"A BALE TO A BOY" IS NOW THE SLOGAN  
SPLENDID YEAR FOR FARM CLUBS OF GEORGIA PREDICTED BY DEPARTMENT.

Atlanta, Ga., Jan. 18.—The old cotton slogan of "a bale to the acre" has been changed in some parts of Georgia to "a bale to the boy," it was pointed out here today by officials of the Georgia Department of Agriculture. Boys in a number of counties have grown, gathered and sold many bales of cotton and these reports indicate that they have "beat their daddies" in making, in effect, two pounds of cotton grow where only one grew before.

Officials of the agricultural department said today that boys' farm clubs are making good progress in this state and they are serving a fine purpose. If the boys on the farm can be shown that farming is not solely an industry for the grown-ups, that the boys also can farm and make money at it while helping their parents, it will go far towards checking the too prevalent movement of young people from the farms to towns, agricultural department officials asserted.

"Farm clubs for the boys and home clubs for the girls, wherever organized, are showing the young people of the country districts that they have a vital part in the business life of the farm and the rural home and this fact once impressed upon the minds of the youth in the country, will do much to make them eager to do their share in maintaining the business of farming," said Hon. J. J. Brown, commissioner of agriculture.

The amount of insurance carried on each individual employee will depend upon his salary scale and the length of his service, the value of the policy automatically increasing when he is promoted or his salary increased and his record of service lengthens.

In addition to the insurance carried for each employee under this plan, it is announced that every employee who wishes may enroll for additional insurance, at his option, at an extremely low rate of premium.

The insurance is provided under a policy of group life insurance by the Travelers Insurance Company of Hartford, Conn. In addition to payment of the full face value in event of death, permanent and total disability, before the age of sixty, is provided for.

The company has for several years provided life insurance benefits for its store managers and supervisory forces, but the extension of these benefits to all employees is a new departure.

All employees entering the service of the company after December 31, 1925, the date on which the group insurance becomes effective, will be insured from the date on which they complete their first six months with the company.

The president of the Great Atlantic & Pacific Tea Company, John A. Hartford, has as much interest in the welfare of each individual employee as he has in further building up the number of stores, which now totals slightly over 14,000. No store is left unattended to make each employee thoroughly satisfied and happy in his occupation. This has been, to a large extent, responsible for the wonderful stride made in developing, as this company is by many others, stores larger than any other chain store company.

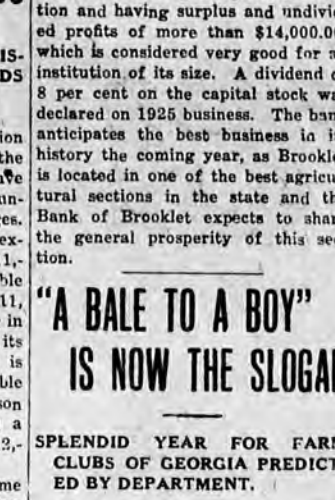

E. P. Vinson, who is vice-president in charge of this section of the southern territory, claims that the Tea Company's success is a fifty-fifty proposition—the satisfaction of the customers, who learn to know the high quality of the merchandise carried, and the satisfaction of the employees, who learn of the high ideals set out by the company, making an ideal combination.

The Orthodox cathedral in Warsaw, erected by the late czar of Russia is now being demolished by the Soviets in order that the last sign of imperial Russia may be eliminated.

A. & P. TEA COMPANY SHOWS PROGRESSIVENESS

Last summer the public learned with interest that employees of the Great Atlantic & Pacific Tea Company were allowed to purchase A. & P. stock, both preferred and common. As this stock has always been practically unobtainable, due to the non-speculative policy of the officials, the employees heartily grasped this opportunity.

Now the Tea Company makes public another move to show its interest in the welfare of its employees. Beginning the first of the year, life insurance will be carried for all permanent full-time employees of the Great Atlantic & Pacific Tea Company and its subsidiaries without cost to the individual, according to announcement recently made by the company.

The amount of insurance carried on each individual employee will depend upon his salary scale and the length of his service, the value of the policy automatically increasing when he is promoted or his salary increased and his record of service lengthens.

In addition to the insurance carried for each employee under this plan, it is announced that every employee who wishes may enroll for additional insurance, at his option, at an extremely low rate of premium.

Not only was this accession to the membership an epoch in the history of the organization, but the meeting was likewise the largest ever held.

Because of the size of the crowd, it was necessary to hold the meeting again in the High School auditorium, and refreshments were served in the domestic science department in the building by the Blue Ray Chapter, O. E. S. as at the former meeting.

Following the luncheon and preceding the business session, a sort of social feature was engaged in, consisting of a number of unique stunts introduced by President McDougald. Among these features was a roll call to which it was announced that each member would be required to respond with a verse of scripture applicable to his individual line of business. Not only was he to quote the scripture correctly, but was required to name the book, chapter and verse from which he quoted. Upon failure to do so, a forfeit of \$10 in cash was demanded. Rev. W. T. Granade and Rev. H. R. Boswell were designated a committee to pass upon the accuracy of the quotations. Unknown to the crowd, a number of scripture verses had been distributed in advance to a designated list of persons, and only their names were called. The uncertainty among those who expected to be called added to the excitement of the occasion.

At the conclusion of the meeting there was conducted the auction sale of the special Stone Mountain Memorial coin designated for Bulloch county, which incident added quite a little life to the occasion.

Announcement was made that the annual ladies' night of the organization will be held next month, the date not yet having been definitely set.

PORTAL ADDS MEMBERSHIP TO CHAMBER OF COMMERCE

The progressive men of Portal took the initiative last week in a movement which has resulted in a total addition of 21 members to the Chamber of Commerce at Statesboro from that place.

It was at a preliminary meeting of the Portal business men held Friday evening that the decision was arrived at that Portal desired to become attached to a county-wide movement for development. A delegation called upon the heads of the Chamber of Commerce in Statesboro and a committee of members, by invitation of the Portal boosters, attended their second meeting Monday evening at which the Portal desired to become attached to a county-wide movement for development. A delegation called upon the heads of the Chamber of Commerce in Statesboro and a committee of members, by invitation of the Portal boosters, attended their second meeting Monday evening at which the Portal desired to become attached to a county-wide movement for development.

Those who represented the Chamber of Commerce and who spoke words of welcome and appreciation to the Portal boosters were W. E. McDougald, president of the club, Pete Donaldson, secretary, Hinton Booth and Dr. R. J. Kennedy.

The meeting was held in the store of J. E. Parrish and Co., and more than forty men, young and old, were present.

Cordial words of endorsement were given by J. O. Parrish, B. A. Davis, A. A. Turner, J. E. Parrish, Dr. Clifford Miller, Dr. E. H. Bowen, E. T. Denmark, Mayor E. Daugherty and others.

We overheard a man say yesterday he has discovered that the hard-est thing to dodge about an auto is the payments on it.

The country would be better off if the fellows who are digging for ancient relics would spend as much energy digging coal.

Governor Walker will speak in Statesboro on Wednesday, January 27th, at 11 a. m.

The meeting will be in the court house, and it is assured that a large crowd will be present to hear him.

Governor Walker is meeting the people of Georgia face to face and laying before them some of the important facts involved in the measures he desires to have handled at the approaching session of the state legislature. This session will convene on February 24th. Important matter included in the call are the proposed issue of bonds for highways and education. There are no questions more intimately identified with the state's future development than these two matters.

Georgia is now at the dividing of the way—she must go ahead or slip backward. Governor Walker is convinced that the people desire to go forward. He wants to outline to them two important means of this forward movement.

Every person in Bulloch county is interested in roads and education. Not every person understands exactly what the proposition of the governor is toward these matters, and, therefore, his promised coming ought to draw a crowd. If the legislature next month adopts some action looking to the issuance of bonds, the people will be required to vote on the subject. If they inform themselves, they will be able to vote more intelligently. They ought to learn first hand what the governor has in mind. They can only learn it thus by hearing him.

Let every man in Bulloch lay down his affairs at home and discharge the important duty he owes himself next Wednesday by coming to hear Governor Walker.

STONE MOUNTAIN COIN BRINGS \$146 AT AUCTION

Stone Mountain Memorial half dollar No. 64, specially designated for Bulloch county, brought \$146 when sold at public outcry at the meeting of the Chamber of Commerce Tuesday evening, and is now the property of the local chapter of U. D. C.

The coin was auctioned by A. M. Deal under a proposition that each bidder would pay his bid and consent to the resale of the coin. Twenty members subscribed \$5.00 each and a number of others lesser amounts, totaling \$126.00. The coin was then resold. Under a proposition of J. W. Park, seconded by F. W. Darby, they were joined by L. M. Mikell and others in making it a gift to the U. D. C. The final and permanent sale price was \$20.00. The coin will be kept as a souvenir by the local chapter.

LAD LOSES FOOT UNDER COTTON STALK CUTTER

Cecil Bessinger, 17 year old son of C. H. Bessinger, near Clito, lost his foot by amputation Saturday as a result of injuries sustained when he fell from a cotton stalk cutter several days before. The young man was operating the machine in his father's farm when he was thrown off the seat and the machine passed over his foot, crushing it badly and mangle the leg below the knee. He was brought to the sanitarium and it was at first believed possible to save the injured limb, but blood poison set in and it was found necessary to amputate it just below the knee.

The man who starts 1926 trying to be a better man today than he was yesterday, is going on all six toward success.
